Big Stretch®
Won’t Crack...It Just Stretches

**DESCRIPTION:**
Big Stretch® is a high-performance water-based elastomeric sealant with powerful adhesion and superior elasticity. It spans gaps up to 2” wide and stretches up to 500% of original joint size without cracking. Big Stretch won’t crack...it just stretches.

**WHERE TO USE:**
Interior and exterior applications, including:
- Windows
- Doors
- Siding
- Vents
- Soffits
- Baseboards
- Eaves
- Crown Moulding
- Sound-proofing interior walls

**ADHERES TO:** (all conform to ASTM C794)
Most building materials including:
- Metals
  - Aluminum
  - Brass
  - Steel
  - Anodized Windows
- Plastics
  - ABS
  - Lexan®
  - Acrylic Sheet
  - PVC
  - Fiberglass
  - Urethane
  - Vinyl
  - Polycarbonate
- Other Surfaces
  - Asphalt
  - Tile
  - Cinder Block
  - Corian®
  - Wood
  - Formica®
  - Glass
  - Mortar
  - Hot melt Butyl
  - Stucco
  - Brick
  - Concrete
  - Stone
  - EIFS
  - Fiber Cement
  - Drywall

**COLORS:**
- White
- Redwood
- Woodtone
- Dark Brown
- Pine Green
- Limestone
- Almond
- Tan
- Gray
- Clear
- Black
- Ironstone
- Slate Gray

Visit www.sashco.com for a color compatibility chart that matches Big Stretch colors to various vinyl window manufacturers’ colors.

**PACKAGING:**
- 10.5 oz. plastic cartridges
- 29 oz. fiber cartridges (white only)

**COVERAGE:**
A 10.5 oz. cartridge will yield approx. 26 lineal feet with a ¼” (6 mm) bead.

**PAINTABILITY:**
Paintable with exterior latex paints/stains after 4 hours and interior latex paints/stains after 24-48 hours (more for humid conditions). Paintable with most exterior oil-based paints/stains after 1 week. Note: some low-end, flat latex paints may crack, regardless of cure time.

*Corian®, Lexan®, and Formica® are registered trademarks of their respective owners.

**FEATURES BENEFITS**
- Super elastic, moves instead of tears
  - Eliminates costly call backs
- Spans gaps up to 2” wide with no slump
  - Stays where it’s applied
- Powerful adhesion
  - Won’t tear or pull away
- High durability
  - Performs well in most any type of climate
- Water-based
  - Easy to tool and clean up
- Low VOC
  - Meets strictest VOC requirements; environmentally friendly
- Superb paintability
  - Compatible with latex paint and most oil-based paints, sealers and stains
- Freeze-thaw stable
  - Simply thaw & apply, no wasted product
- Limited Lifetime Warranty
  - Have confidence that you’re using the right product
- Full 10.5 oz. in every cartridge
  - More for your money
- Won’t cause paint gloss
  - No more shiny caulk lines
- Exclusive stop flow plunger
  - Less waste, less mess
WHERE NOT TO USE:
- Areas of water submersion or frequent, prolonged puddling
- Areas with high foot and/or vehicle-traffic (driveways, sidewalks, decks, patios, etc.)
- Roofs exposed to prolonged dampness (use Sashco’s Through the Roof® instead)
- Big Stretch Clear should not be used on copper flashing. Colored Big Stretch, Sashco’s Lexel® or Sashco’s Through the Roof® are best for this application.
- Will not adhere to or is incompatible with Kynar®, Polypropylene, Waxes, Polyethylene, and Silicone.

APPLICATION:
- Lower temperatures and higher humidity will slow cure time. Allow 1-3 days curing before exposure to direct rainfall. Use plastic sheeting with good airflow underneath to protect the product if rain is expected sooner.
- Natural shrinkage will give the joint a concave appearance; multiple applications may be needed to fill the joint flat.
- If dirt or oils are present on the substrate, wash with any household cleaner, rinse to remove and allow to thoroughly dry.
- Remove any old caulk, especially silicone and all silicone residue. Use a silicone remover.
- Insert backer rod into joints deeper than 1/2” to provide for proper sealant depth and a stronger, longer lasting seal.
- Choose bead size and cut the nozzle. Puncture the inner seal.
- Tool for a smoother bead using a damp foam or paint brush with a light, skimming touch, or use a beading tool.

STORAGE AND CLEAN-UP:
- Clean up tools and hands with warm water and soap.
- Leftover Big Stretch can be stored if the nozzle is tightly wrapped with plastic wrap and a rubber band.

SPECIFICATIONS:
- Meets FHA requirements.
- Meets or exceeds Federal Specification:
  - TT-S-00230 C
  - ASTM C834
  - ASTM C920, Type S, NS, Class 25, Use NT, M, A. Exceeds 10% weight loss.
